Task 4.1 & 4.2 - Problem Solving - Generate visual ideas and test pieces. Log them on your Blog using the Dev Log template - sketches/photo-bash, traditional artwork, digital artwork, reference material, models, level plans, scripts, GDD, UML, scripts, planning, colour/mood ideas, storyboarding, character bios, blocking out and test builds, art styles, test programmes etc.	x			

Peer Feedback	
<b>Strengths – What have they done well? Explain why.</b>	<b>Identify any tasks which are missing or incomplete. Identify tasks that need improvement.</b>
From task 2 to 3 everything is really well done, detailed and overall just really good, much doesn't need to be changed at all.	Just need to finish off task 4 with the annotating and uploading images.

Student Action Plan
I will be directing my focus onto completing the final stages of my problem solving.
